2 m | Red | RJ45 / RJ45 | 7 × 0.12 mm CCA | PVC

OVERVIEW

The GigaNeed GI-CUCOR-2R-6A is a 2 m network patch cord with a red PVC jacket and an RJ45 plug at each end. Its stranded 7 × 0.12 mm CCA conductors keep it flexible for links between a patch panel and a switch, or from a wall outlet to a workstation.

KEY SPECIFICATIONS

Type	Network patch cord
Length	2 m
Jacket colour	Red
Conductor	Stranded, 7 × 0.12 mm, CCA
Jacket	PVC
Connectors	RJ45 plug at both ends

Product image for illustration.

FEATURES

- Colour-coded jacket to identify each link
- Stranded conductors for a flexible cord
- For LAN and standard Ethernet links
- 2 m length

CONDUCTOR NOTE

CCA (copper-clad aluminium) conductors have a higher DC resistance than solid copper. Use these cords for everyday LAN links; for certified channels or high-power PoE, choose solid-copper cords.
