45 × 45 mm modules for keystones

Surface back box, frame and keystone modules · white

CABLE TODAY · WONDERFUL TOMORROW

45 × 45 mm | Keystone | 1 or 2 windows | Cat 5e / 6 / 6A | Modular | White

OVERVIEW

GIGA-CU-MOD45 is the set of white modular parts used to build voice, data and power outlets in the 45 × 45 mm format. The 80 × 80 mm surface back box takes a 45 × 45 mm frame, into which a module with one or two windows receives Cat 5e, Cat 6 or Cat 6A keystone jacks. Parts are sold separately so each outlet can be assembled to suit the installation.
